### **Statement**

I have been in business as a studio potter for ten years. During that time I have built up a strong support from galleries and individuals up and down the country and in more recent years in the USA and Japan. I am currently researching some new ideas which will be developed from inquiry into the press moulded wares of Samuel Malkin in the early 1700s. My ambitions for the next decade include building on my understanding of wood firing earthenwares and continuing to exhibit internationally.

Elected professional member of the Craft Potters Association, 2009
